

Explore how plants adapt to their needs for light.

Name: _____

You'll need:
a plant
sunny window

1. Place the plant near a sunny window.
 2. Observe the plant after three days.
 3. Rotate the plant.
 4. Observe the plant over the next few days.
- Draw your observations.

Day 1	Day 3 - before you rotated it
Day 5	Day 7

How did the plant change from Day 1 to Day 3?

What happened a few days after you rotated the plant?

How do plants adapt to meet their needs for light?
